Unit 7: Artificial intelligence

B1 · English · 16 questions

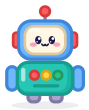

Flashcards

 artificial intelligence	component	reinforcement	neural networks
process	machine learning	behavior	operate
 tool	modify	evolve	algorithm

Worksheet: Unit 7: Artificial intelligence

Name: _____ Class: _____

Write the word.

1.  _____

2.  _____

Fill in the gap.

algorithm artificial intelligence behavior component evolve machine learning modify neural networks operate process reinforcement tool

3. _____ helps us in daily life.
4. Each _____ of the robot has a job.
5. The robot learns through _____ and rewards.
6. _____ work a bit like the brain.
7. The computer can _____ data very fast.
8. _____ helps computers learn from examples.
9. The robot's _____ is friendly and polite.
10. Can you _____ this machine by yourself?
11. A hammer is a useful _____.
12. We can _____ the program to make it better.
13. Technology continues to _____ every year.
14. An _____ is a set of steps.

Answer the questions.

15. AI can solve math problems ___ than people.
    a) more quickly b) more slow c) most quickly d) quick more
16. Which is correct? AI can ___ more quickly than humans.
    a) data processes b) process data c) processing data d) to process data
17. A tool is used ___ do a particular job.
    a) at b) by c) for d) to
18. Machine learning is used to ___.
    a) teach computers b) teacher computers c) teaches computers d) teaching computers

Answers

1. artificial intelligence
2. tool
3. artificial intelligence
4. component
5. reinforcement
6. neural networks
7. process
8. machine learning
9. behavior
10. operate
11. tool
12. modify
13. evolve
14. algorithm
15. more quickly
16. process data
17. to
18. teach computers
