Unit 10: Energy Sources

A2 · English · 16 questions

Flashcards

 coal	 natural gas	 nuclear power	 oil
 hydropower	 solar power	 wind power	 wind turbine
 solar panel	 power plant	 renewable energy	non-renewable

Worksheet: Unit 10: Energy Sources

Name: _____ Class: _____

Write the word.

1.  _____
2.  _____
3.  _____
4.  _____
5.  _____
6.  _____
7.  _____
8.  _____
9.  _____
10.  _____
11.  _____

Fill in the gap.

coal hydropower natural gas non-renewable nuclear power oil power plant renewable energy solar panel solar power wind power wind turbine

12. Some old power plants burn _____.
13. We cook with _____ at home.
14. _____ makes a lot of electricity.
15. Cars use _____ to run.
16. _____ comes from moving water.

    a) more petrol cars b) oil heaters c) old trucks d) wind turbines

Answers

1. coal
2. natural gas
3. nuclear power
4. oil
5. hydropower
6. solar power
7. wind power
8. wind turbine
9. solar panel
10. power plant
11. renewable energy
12. coal
13. natural gas
14. nuclear power
15. oil
16. hydropower
17. solar power
18. wind power
19. wind turbine
20. solar panel
21. power plant
22. renewable energy
23. non-renewable
24. cleaner
25. cheaper
26. solar panels
27. wind turbines
